

Governed collaboration for national and local public service

We bring official Mail, meetings, files, office documents, structured work, identity, administration, and reports into a Philippine-hosted workspace that agencies can evaluate as one service.

The screenshot displays the 'Administration and governance' interface of GoOfficePH. The top navigation bar includes the GoOfficePH logo, the user 'GoOffice Platform Admin' signed in as 'admin@GoOffice.ph', and links to 'Website' and 'Groupware'. The sidebar on the left contains a 'CONSOLE' section with 'Personal' and 'My Organization' (selected), and a 'PERSONAL' section with 'Overview', 'Services and wallet', 'Import and transfer', 'Security and account', and 'Help and support'. The main content area shows the 'Organization overview' for 'GoOffice QA Tenant' (gooffice.ph). It features a search bar, a summary of users (24), domains (5), and storage (88 GB / 100 GB), and a 'JUMP TO SECTION' dropdown. Three numbered tasks are listed: 1. Manage access (Invite users, place them under domains, assign tenant admins, and review account state), 2. Control services (Manage domains, mail policies, storage pools, app services, credits, and branding), and 3. Measure activity (Use organization reports for user lifecycle, adoption, storage, support, and governance). Below these, a 'GoOffice QA Tenant' summary shows 24 users (21 active, 3 suspended) and 5 domains (5 verified). A 'Common tasks' section includes 'Manage people' (Invite users, assign domains, and review tenant admins) and 'Manage domains and mail' (Add domains, verify DNS, aliases, and forwarding rules).

Administration and governance

The complete interface remains visible and recognizable.

Start with the outcome. Add depth when it earns its place.

Establish identity

Domains, users, recovery, policy, and Mail create a dependable starting point.

Coordinate people

Chat/Meet, guests, schedules, and contacts bring teams into the same operating context.

Connect execution

Suite, Work Boards, Whiteboard, Wallet, administration, and reports carry work through completion.

One context across the workspace

Related work stays connected without hiding its original source.

Agencies must modernize collaboration while preserving clear responsibility for official communication, access, sensitive information, continuity, and procurement.

1

Protect continuity

Fragmented accounts and tools make access reviews, incident response, and offboarding harder to complete.

2

Keep context

Official communication and working files become difficult to trace when identity, storage, meetings, and follow-up live in separate systems.

3

Make responsibility visible

Cloud adoption still requires data classification, safeguards, accountability, and documented operating boundaries.

4

Scale without confusion

Personal accounts and disconnected subscriptions weaken continuity when personnel or administrations change.

One working journey, from communication to accountable follow-through.

Start with daily work

Mail establishes the identity and communication path teams already understand.

Outcome

Give agency personnel one identity and a clear place for Mail, meetings, files, office work, and follow-through.

Outcome

Delegate administration by tenant, domain, and role while preserving platform-level oversight.

Outcome

Review activity, service use, security events, and operational reports without assembling evidence from unrelated tools.

See complete applications doing recognizable work.

Chat/Meet in active use

People remain visible across a complete meeting interface.

GoOfficePH Mail

Keep daily communication, attachments, invitations, safety cues, and follow-up in one focused inbox.

GoOfficePH Suite

Keep files, sharing, documents, spreadsheets, presentations, exports, versions, and storage in one workspace.

GoOfficePH Whiteboard

Capture meeting ideas with host controls, attributed annotations, and export to PDF, OpenDocument Drawing, or Suite.

GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

GoOfficePH Calendar

Keep invitations, schedules, shared calendars, meeting links, and follow-up visible across the workspace.

Keep communication, files, schedules, decisions, and next steps in one relationship.

The screenshot displays the GoOfficePH Suite workspace. On the left is a sidebar with a search bar and a folder tree. The main area shows four overlapping windows: a 'FILES' window with a document list, a 'DOCUMENT' window titled 'Regional Service Readiness Letter.odt' with a menu bar and text content, an 'SPREADSHEET' window titled 'FY2027 Program Budget.ods' with a data table, and a 'PRESENTATION' window titled 'Regional Services Briefing.odp' with a slide titled 'Regional Services 2027'.

Files and office work together
Suite preserves the complete file, document, spreadsheet, and presentation workspace.

GoOfficePH Contacts

Keep personal contacts, tenant directories, shared address books, and Mail recipient workflows together.

Administration and governance

Manage people, tenants, domains, roles, services, storage, and policy from role-aware consoles.

Reports

Turn activity and service data into role-appropriate online views and professional exports.

GoOfficePH Connected Workspace

Keep related messages, meetings, files, schedules, contacts, boards, whiteboards, and credit actions close to the work they support.

Auditability

Review who acted, what changed, where it happened, and which organization was affected.

Begin with the service the organization needs now, then expand deliberately.

One credit equals one Philippine peso. Annual commitment rates and month-to-month rates remain visible before activation.

PROFESSIONAL EMAIL	Mail Lite Philippine-hosted business email with company domains, aliases, forwarding, vacation replies, app-password access, mailbox privacy controls, and straightforward administration.	PHP 149
REAL-TIME COLLABORATION	Chat/Meet Standalone Persistent team rooms, guest links, voice, video, screen sharing, meetings, and tenant-aware permissions for organizations that want real-time collaboration without the full Groupware bundle.	PHP 199
GROUPWARE ENTRY	Workspace Starter Mail, Files, Suite, basic Chat, Calendar, Contacts, Wallet, Connected Workspace, pooled storage, company domain setup, invitations, and tenant administration for growing teams.	PHP 249
COMPLETE GROUPWARE	Workspace Business Complete Groupware with Work Boards, Whiteboard, Calendar, Contacts, Wallet, Connected Workspace, 100 GB pooled storage per seat, Chat/Meet host rights, desktop access, advanced administration, and higher-priority support.	PHP 499
HIGH-ASSURANCE OPTION	Sovereign Plus The complete connected application catalog with priority support, stronger audit visibility, sovereign backup policies, compliance reporting, and enhanced administration for regulated and mission-critical organizations.	PHP 899

Clear entry points. One operating model as the workspace grows.

See where responsibility lives.

08 | Governance

Prove one outcome before expanding the footprint.

Assess

Map users, domains, data, migration sources, policies, and a measurable first workflow.

Establish

Set up identity, recovery, protection, Mail, and the first operating group.

Coordinate

Add rooms, meetings, guests, schedules, and mobile participation.

Connect

Add files, office work, boards, whiteboards, wallets, governance, and reports.

Measure and expand

Review adoption, service health, risk, support, storage, and outcomes before scaling.

Schedule a sovereign workspace assessment

Ground the decision in current policy, market context, pricing, and product evidence.

- 1 **DICT Cloud First Policy**
Cloud computing is the preferred ICT deployment strategy for government agencies, subject to policy exceptions.
https://cms-cdn.e.gov.ph/DICT/pdf/Signed_DICT-Circular_2017-002_CloudComp_2017Feb07.pdf

- 2 **DOF / amended DICT Cloud First policy**
Sensitive government data is subject to the residency conditions of the amended Cloud First Policy; general government cloud data is not automatically restricted to the Philippines.
