

Professional communication that grows into a complete workspace

We give growing Philippine businesses professional domains, Mail, meetings, files, office tools, calendars, contacts, and administration in one locally supported workspace with predictable peso-based credits.

The screenshot displays the GoOfficePH Mail interface, which is a professional email workspace. The interface is divided into three main sections: a left sidebar, a central message list, and a right pane for the selected email.

Left Sidebar: Features a 'MAILBOX' header, a 'Mail' section with a 'Compose' button, and a list of folders including 'All mail' (3), 'VIP' (1), 'Unread' (0), 'Flagged' (1), 'Attachments' (1), 'Server folders' (3), 'Inbox' (18), 'Sent Items' (12), 'Drafts' (2), 'Categories' (4), and 'Follow-up' (4).

Central Message List: Displays a search bar, a 'Connected' status, and a list of 3 messages. The first message is from 'programs@gooffice.ph' with the subject 'Regional services briefing ready for review', dated Jul 12, 4:35 PM. It is marked as 'VIP' and 'Flag'. The second message is from 'domains@gooffice.ph' with the subject 'Your organization domain is ready', dated Jul 12, 3:15 PM. The third message is from 'finance@gooffice.ph' with the subject 'Program budget comments resolved', dated Jul 12, 12:40 AM.

Right Pane: Shows the details of the selected email from 'programs@gooffice.ph'. The subject is 'Regional services briefing ready for review'. The email body contains the text: 'The regional services briefing pack is ready. Please review the agenda and confirm the action owners before Thursday's meeting.' The right pane also includes a 'Details' section, a 'primary review' tab, and an 'Attachments' section with a 'Download all attachments' button.

GoOfficePH Mail
The complete interface remains visible and recognizable.

Start with the outcome. Add depth when it earns its place.

Establish identity

Domains, users, recovery, policy, and Mail create a dependable starting point.

Coordinate people

Chat/Meet, guests, schedules, and contacts bring teams into the same operating context.

Connect execution

Suite, Work Boards, Whiteboard, Wallet, administration, and reports carry work through completion.

One context across the workspace

Related work stays connected without hiding its original source.

Migration and setup can overwhelm teams without dedicated IT staff.

One working journey, from communication to accountable follow-through.
