Public schools and higher-education institutions represent a substantial, distributed institutional market.

One institutional workspace from the registrar to the classroom team.

Education institutions must serve many people, roles, campuses, and domains while protecting institutional identity and keeping administration affordable.

The screenshot displays the GoOfficePH Chat/Meet interface. At the top, the GoOfficePH logo is on the left, and the text "GoOfficePH Chat/Meet" is on the right. Below the header, there's a navigation bar with "Website" and "Groupware" buttons, and a user profile dropdown showing "Signed in as Operations Administrator". The main interface is divided into two sections: "CHAT AND MEET" on the left and "ROOM" on the right. The "CHAT AND MEET" section lists various rooms: "New room", "Regional services review" (6 participants - meeting live), "Operations team" (12 members - 3 new messages), and "Finance committee" (8 members - meeting tomorrow). The "ROOM" section shows a video meeting titled "Regional services review" with 6 participants. It includes a "Video meeting active" status, a list of participants (You, Mara Santos, Paolo Reyes, Grace Lim, Nico Dela Cruz, Leah Villanueva), and a "Meeting connected" message. The bottom of the interface features a dark blue banner with the text "GoOfficePH Chat/Meet" and "Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts."

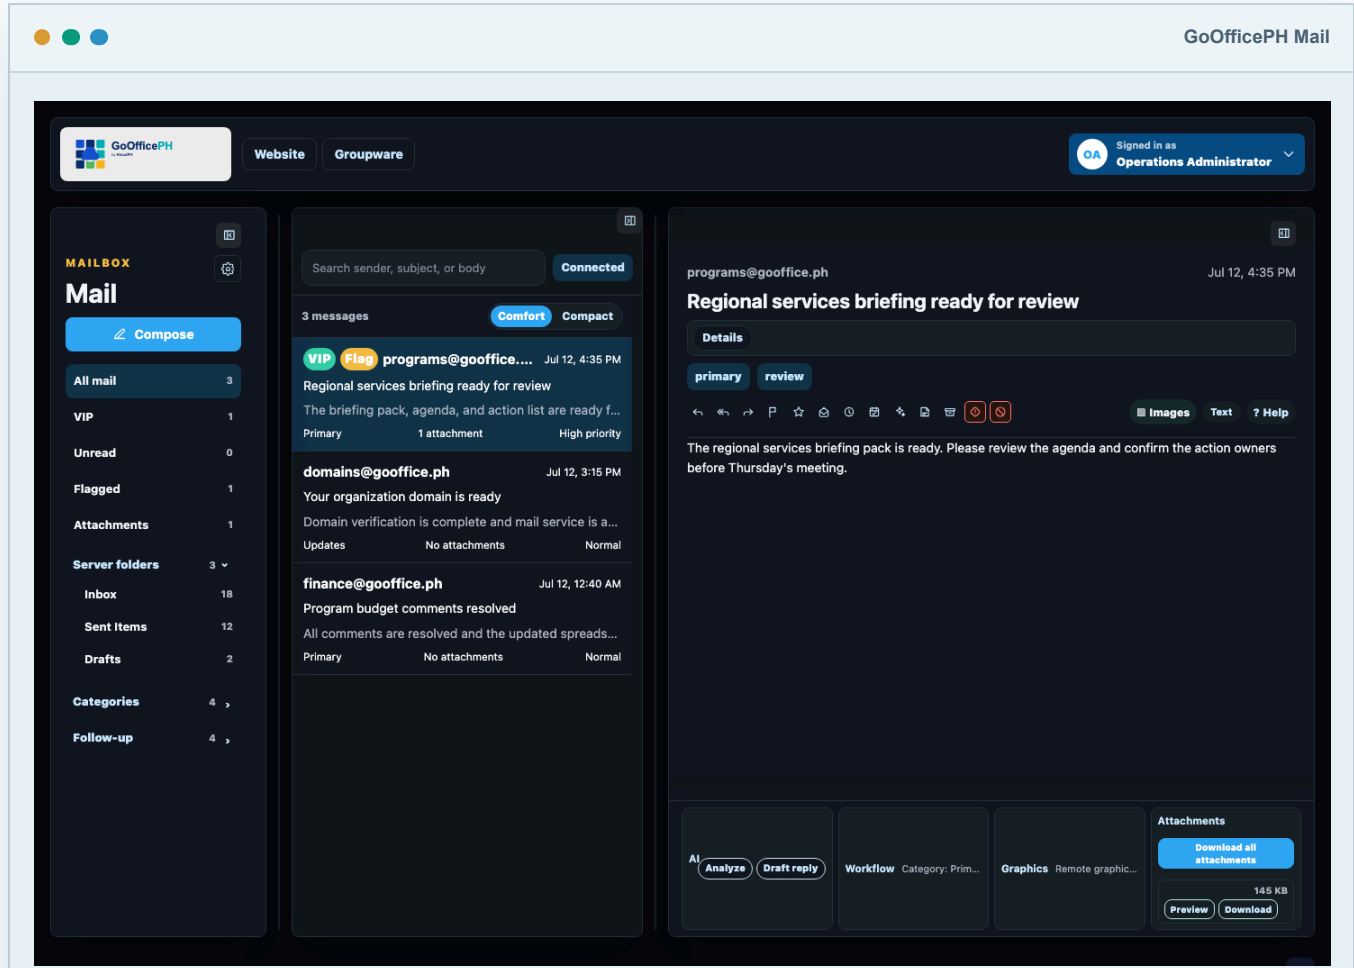

Protect the operating model

Account sprawl and informal file sharing make onboarding, access review, and staff transitions difficult.

Keep work understandable

Faculty and administrators lose time when communication, meetings, calendars, documents, and action items are scattered.

One working journey, from communication to accountable follow-through.
