

MANAGED DESKTOP WORKSPACE

Desktop GoOfficePH Groupware

We extend Mail, Suite, Chat/Meet, Calendar, and Contacts into a managed desktop experience for supported operating systems.

We extend Mail, Suite, Chat/Meet, Calendar, and Contacts into a managed desktop experience for supported operating systems.

Keep core work close

Reach Mail, Suite, Chat/Meet, Calendar, and Contacts from one managed desktop workspace.

Work through interruptions

Use supported continuity and synchronization behavior where a desktop workflow requires it.

Operate managed devices

Apply activation, release, support, and organization policy through a controlled distribution path.

The application experience and the controls around it operate as one GoOfficePH service.

A complete, recognizable interface - not a decorative crop.

The screenshot displays the Desktop GoOfficePH Groupware interface. At the top right, it says "Desktop GoOfficePH Groupware". Below this is a navigation bar with the GoOfficePH logo, "Website" and "Groupware" buttons, and a user profile "Signed in as Operations Administrator". The main content area is titled "GOOFFICEPH GROUPWARE Connected Workspace" with a subtitle "See related mail, files, meetings, whiteboards, tasks, events, and credit service context without duplicating the source item." and a search bar. Below this are four summary cards: "12 Mail", "8 Suite", "4 Chat/Meet", and "7 Work Boards". The "MY WORK" section includes "Follow-ups" with items like "Confirm regional service owners" (For Review), "Publish continuity plan" (In Progress), and "Schedule partner briefing" (Requested). The "ACROSS APPS" section shows "Search results". The "ACTIVITY" section lists "Recent connected work" including a "Regional operations review" meeting. A "Report issue" button is in the bottom right.

Desktop GoOfficePH Groupware

Give managed Windows, macOS, and Linux devices a consistent desktop path into Mail, Suite, Chat/Meet, Calendar, and Contacts.

Follow the task from entry to outcome.

Activate

Install the supported build and apply the organization activation path.

Work

Use the core GoOfficePH apps through one desktop workspace.

Synchronize

Reconcile supported offline changes and review any item that needs attention.

The screenshot displays the GoOfficePH Mail application interface. The top bar shows the GoOfficePH logo, navigation tabs for 'Website' and 'Groupware', and a user profile for 'Operations Administrator'. The left sidebar contains a 'MAILBOX' section with a 'Mail' view, a 'Compose' button, and a list of folders including 'All mail', 'VIP', 'Unread', 'Flagged', 'Attachments', 'Server folders', 'Inbox', 'Sent Items', 'Drafts', 'Categories', and 'Follow-up'. The main content area shows a list of messages. The selected message is from 'programs@gooffice.ph' with the subject 'Regional services briefing ready for review'. The message body states: 'The regional services briefing pack is ready. Please review the agenda and confirm the action owners before Thursday's meeting.' The interface includes a search bar, a 'Connected' status indicator, and a 'Details' section for the selected message. At the bottom, there are buttons for 'AI Analyze', 'Draft reply', 'Workflow', 'Graphics', and 'Attachments'.

Connected follow-through

Keep daily communication, attachments, invitations, safety cues, and follow-up in one focused inbox.

Make the experience simple without hiding operational depth.

MANAGED EXPERIENCE

One launcher

Keep core GoOfficePH applications within one desktop surface.

MANAGED EXPERIENCE

Supported platforms

Distribute the appropriate signed build for the managed operating system.

MANAGED EXPERIENCE

Release visibility

Keep version, activation, and release information easy to review.

CONTINUITY

Synchronization

Queue supported changes until they can be safely reconciled.

CONTINUITY

Conflict visibility

Surface items that require a user or administrator decision.

CONTINUITY

Organization support

Keep deployment and support responsibility aligned with managed devices.

GoOfficePH Mail

Keep daily communication, attachments, invitations, safety cues, and follow-up in one focused inbox.

GoOfficePH Suite

Keep files, sharing, documents, spreadsheets, presentations, exports, versions, and storage in one workspace.

GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

GoOfficePH Calendar

Keep invitations, schedules, shared calendars, meeting links, and follow-up visible across the workspace.

GoOfficePH Contacts

Keep personal contacts, tenant directories, shared address books, and Mail recipient workflows together.

Desktop GoOfficePH Groupware features - 1 of 2

Technical readers can scan the implemented capability. Everyone else can read what that capability changes in everyday work.

TECHNICAL CAPABILITY	WHAT IT MEANS FOR YOU
WORKSPACE	
Managed desktop launcher	Reach core GoOfficePH applications from one installed workspace.
Mail, Suite, Chat/Meet, Calendar, and Contacts access	Keep daily applications together without separate bookmarks.
PLATFORMS	
Windows distribution	Install the managed workspace on supported Windows devices.
macOS distribution	Install the managed workspace on supported Apple desktop devices.
Linux distribution	Use supported packages for managed Linux desktops.
RELEASE	
Version and release visibility	Know which managed build is installed and what changed.
Signed packages and checksums	Verify that the installation package is the intended release.

Customer-facing capability register for the current GoOfficePH production experience. Availability can depend on role, organization policy, subscription, device, and deployment configuration.

Desktop GoOfficePH Groupware features - 2 of 2

Technical readers can scan the implemented capability. Everyone else can read what that capability changes in everyday work.

TECHNICAL CAPABILITY	WHAT IT MEANS FOR YOU
ACTIVATION	
GoOfficePH identity activation	Use the same account and organization context as the web workspace.
Entitlement-aware app access	Show the applications enabled for the user or tenant.
CONTINUITY	
Supported local continuity	Keep eligible work available during temporary connectivity interruptions.
Queued synchronization	Hold supported changes until they can be safely sent.
Conflict visibility	Ask for a decision when the local and server versions cannot merge safely.
MANAGEMENT	
Organization deployment path	Roll out approved builds through managed-device processes.
Central support and release notes	Give users and administrators one place for current guidance.
SECURITY	
Policy-aligned session and storage handling	Keep desktop behavior within the organization's managed access model.

Customer-facing capability register for the current GoOfficePH production experience. Availability can depend on role, organization policy, subscription, device, and deployment configuration.

The product remains manageable after adoption.

MY ORGANIZATION

Organization overview

Your organization console groups tenant-scoped people, domains, mail controls, storage, branding, credits, services, and activity reporting.

JUMP TO SECTION

Open a task, report, or review area

Choose a task or report

1 Manage access

Invite users, place them under domains, assign tenant admins, and review account state.

2 Control services

Manage domains, mail policies, storage pools, app services, credits, and branding.

3 Measure activity

Use organization reports for user lifecycle, adoption, storage, support, and governance.

Common tasks

Manage people

Invite users, assign domains, and review tenant admins.

Manage domains and mail

Add domains, verify DNS, aliases, and forwarding rules.

Role-aware administration

People, services, policy, and evidence remain connected to the application.

Administration Users, roles, services, policy, and configuration	Security Identity, access, protection, and response	Audit Actor, action, target, tenant, result, and time	Reports Online analysis and professional exports
--	---	---	--

Introduce the capability around a real outcome.

Confirm the audience

Identify the users, tenant, domains, roles, and external participants involved.

Set policy and access

Apply the organization's service, security, sharing, storage, and retention requirements.

Move a real workflow

Use representative content and measure whether the new path improves clarity and follow-through.

Review and expand

Use activity, support, audit, and report data before increasing the rollout.

Subscription or entitlement controlled. Production version 5.0.0.
