

The screenshot displays the GoOfficePH Whiteboard interface. At the top, there's a navigation bar with 'Website' and 'Groupware' buttons, and a user status indicator 'Signed in as Operations Administrator'. Below this, the main header reads 'Whiteboard and annotations' with a subtitle 'Keep visual thinking and meeting annotations together in a controlled GoOfficePH workspace.' To the right of the header are buttons for 'Report issue', 'New board', and a refresh icon.

The main workspace is titled 'Regional service planning'. It features a toolbar on the left with tools like Pen, Mark, Box, Circle, Line, and Text. The central canvas shows a diagram titled 'Regional service priorities' with three boxes: 'People' (green border), 'Process' (purple border), and 'Places' (orange border), connected by lines. Below the diagram, a yellow arrow points to the text 'Next: confirm owners and dates'.

On the right side, there's a sidebar with 'BOARD STATE' (Meeting annotations enabled), 'CONTRIBUTORS' (listing Maria Santos, Paolo Reyes, Grace Lim, and Nico Dela Cruz with their mark counts), and 'EXPORT' buttons for 'Download PDF' and 'Download ODG'.

VISUAL COLLABORATION

GoOfficePH Whiteboard

We give meetings a simple, host-controlled visual workspace with attributed contributions and reusable outputs.

We give meetings a simple, host-controlled visual workspace with attributed contributions and reusable outputs.

Start without training

Freehand, highlighter, shapes, text, undo, and clear keep the tool understandable.

Know who contributed

Participant attribution and room membership preserve accountability.

Keep the result

Export to PDF or OpenDocument Drawing, save to Suite, and send the final PDF to the host.

The application experience and the controls around it operate as one GoOfficePH service.

A complete, recognizable interface - not a decorative crop.

The screenshot displays the GoOfficePH Whiteboard interface. At the top, there's a header with the GoOfficePH logo, navigation links for 'Website' and 'Groupware', and a user profile dropdown showing 'Signed in as Operations Administrator'. Below the header, the main workspace is titled 'Whiteboard and annotations' with a subtitle 'Keep visual thinking and meeting annotations together in a controlled GoOfficePH workspace.' The interface includes a toolbar on the left with tools like Pen, Mark, Box, Circle, Line, Text, and Undo. The central area shows a diagram titled 'Regional service priorities' with three boxes labeled 'People', 'Process', and 'Places' connected by lines. Below the diagram, a yellow arrow points to the text 'Next: confirm owners and dates'. On the right, there's a sidebar with 'BOARD STATE' (Meeting annotations enabled), 'CONTRIBUTORS' (listing Maria Santos, Paolo Reyes, Grace Lim, and Nico Dela Cruz with their mark counts), and 'EXPORT' options (Download PDF, Download ODG, and Save to Suite).

GoOfficePH Whiteboard

Whiteboard and annotations

Keep visual thinking and meeting annotations together in a controlled GoOfficePH workspace.

Board: Regional service planning | Title: Regional service planning | Room members and invited guests can annotate | Allow participant annotations

Regional service priorities

People | Process | Places

Next: confirm owners and dates

BOARD STATE
Meeting annotations enabled
Members of this Chat/Meet room and guests invited by the host can add marks. Only the host can clear the board or change access.

CONTRIBUTORS

- Maria Santos (4 marks)
- Paolo Reyes (2 marks)
- Grace Lim (3 marks)
- Nico Dela Cruz (2 marks)

EXPORT

- Download PDF
- Download ODG
- Save to Suite

GoOfficePH Whiteboard

Capture meeting ideas with host controls, attributed annotations, and export to PDF, OpenDocument Drawing, or Suite.

Follow the task from entry to outcome.

Enable

The host opens the whiteboard for the current room and confirms participant permissions.

Collaborate

Members and invited guests annotate with attributed tools under host control.

Preserve

Export the board, save it to Suite, and deliver the final PDF to the host.

The screenshot displays the GoOfficePH Chat/Meet interface. At the top, the GoOfficePH logo is on the left, and the user is signed in as 'Operations Administrator'. The main area shows a video meeting titled 'Regional services review' with 6 participants. The participants are displayed in a grid: 'You' (a man), 'Mara Santos' (a woman), 'Paolo Reyes' (a man), 'Grace Lim' (a woman), 'Nico Dela Cruz' (a man), and 'Leah Villanueva' (a woman). The interface includes a 'CHAT AND MEET' sidebar on the left with options for 'New room', 'Regional services review' (6 participants - meeting live), 'Operations team' (12 members - 3 new messages), and 'Finance committee' (8 members - meeting tomorrow). The main meeting area has a 'ROOM' header, a 'Video meeting active. 6 participants' status, and buttons for 'Refresh', 'Invite', 'Voice', and 'Video'. Below the video grid, there are buttons for 'Chat', 'Whiteboard', 'Copy link', and 'Leave'. A message at the bottom states: 'Meeting connected. Recording and live transcription are ready for the host.' and 'GoOfficePH The regional services meeting is live. Shared files and action items remain connected to this room.'

Connected follow-through

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

Make the experience simple without hiding operational depth.

CANVAS TOOLS

Drawing and highlighting

Express ideas quickly with pressure-independent, touch-friendly controls.

CANVAS TOOLS

Undo and clear

Recover from mistakes without interrupting the meeting.

GOVERNED COLLABORATION

Room permissions

Members and invited guests receive understandable annotation rights.

GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

CANVAS TOOLS

Shapes and text

Structure diagrams, labels, decisions, and next steps.

GOVERNED COLLABORATION

Host enablement

The host decides when visual collaboration is available.

GOVERNED COLLABORATION

Attributed export

Preserve the board with participant context and standard export formats.

GoOfficePH Suite

Keep files, sharing, documents, spreadsheets, presentations, exports, versions, and storage in one workspace.

GoOfficePH Connected Workspace

Keep related messages, meetings, files, schedules, contacts, boards, whiteboards, and credit actions close to the work they support.

GoOfficePH Whiteboard features - 1 of 2

Technical readers can scan the implemented capability. Everyone else can read what that capability changes in everyday work.

TECHNICAL CAPABILITY	WHAT IT MEANS FOR YOU
CANVAS	
Freehand drawing	Sketch an idea naturally with a mouse, stylus, or touch screen.
Highlighter	Emphasize content without covering what is underneath.
Lines, arrows, rectangles, ellipses, and shapes	Turn rough discussion into an understandable diagram.
Text labels	Name decisions, owners, concepts, and next steps directly on the board.
Color and stroke controls	Differentiate ideas and emphasis without complex design tools.
Undo and clear	Recover from mistakes or reset the canvas quickly.
MEETINGS	
Chat/Meet room launch	Open the board for the meeting already in progress.
Host-only enablement	Let the meeting host decide when collaborative annotation is available.

Customer-facing capability register for the current GoOfficePH production experience. Availability can depend on role, organization policy, subscription, device, and deployment configuration.

GoOfficePH Whiteboard features - 2 of 2

Technical readers can scan the implemented capability. Everyone else can read what that capability changes in everyday work.

TECHNICAL CAPABILITY	WHAT IT MEANS FOR YOU
PERMISSIONS	
Tenant, domain, room-member, and guest annotation policy	Give expected participants clear rights without opening the board broadly.
ATTRIBUTION	
Participant-attributed contributions	Know which participant added each meaningful item.
COLLABORATION	
Shared real-time canvas refresh	See other participants' contributions during the working session.
HISTORY	
Revision checks and activity events	Preserve a reviewable record of important board changes.
EXPORT	
PDF export	Create a fixed document that is easy to email and archive.
OpenDocument Drawing export	Keep an editable open-standard version for further work.
SUITE	
Save to Suite and host delivery	Store the result with other files and send the final PDF to the host.

Customer-facing capability register for the current GoOfficePH production experience. Availability can depend on role, organization policy, subscription, device, and deployment configuration.

The product remains manageable after adoption.
