## PUBLIC SECTOR CAMPAIGN KIT

# Governed collaboration for national and local public service

One governed workspace for the work citizens depend on.

# Work moves faster when context moves with it.

## Cloud first

Government policy makes cloud the preferred ICT deployment strategy, subject to defined exceptions.

One governed workspace for the work citizens depend on.

# Agencies must modernize collaboration while preserving clear responsibility for official communication, access, sensitive information, continuity, and procurement.

The screenshot displays the GoOfficePH Chat/Meet interface. At the top, there's a navigation bar with 'Website' and 'Groupware' buttons, and a user profile for 'Operations Administrator'. The main area is divided into a 'CHAT AND MEET' sidebar on the left and a 'ROOM' section on the right. The sidebar lists rooms: 'Regional services review' (6 participants, meeting live), 'Operations team' (12 members, 3 new messages), and 'Finance committee' (8 members, meeting tomorrow). The 'ROOM' section shows a video meeting titled 'Regional services review' with 6 participants. It includes a grid of video feeds for 'You', 'Mara Santos', 'Paolo Reyes', 'Grace Lim', 'Nico Dela Cruz', and 'Leah Villanueva'. Below the grid, a status bar indicates 'Meeting connected. Recording and live transcription are ready for the host.' and a GoOfficePH message: 'The regional services meeting is live. Shared files and action items remain connected to this room.'

## GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

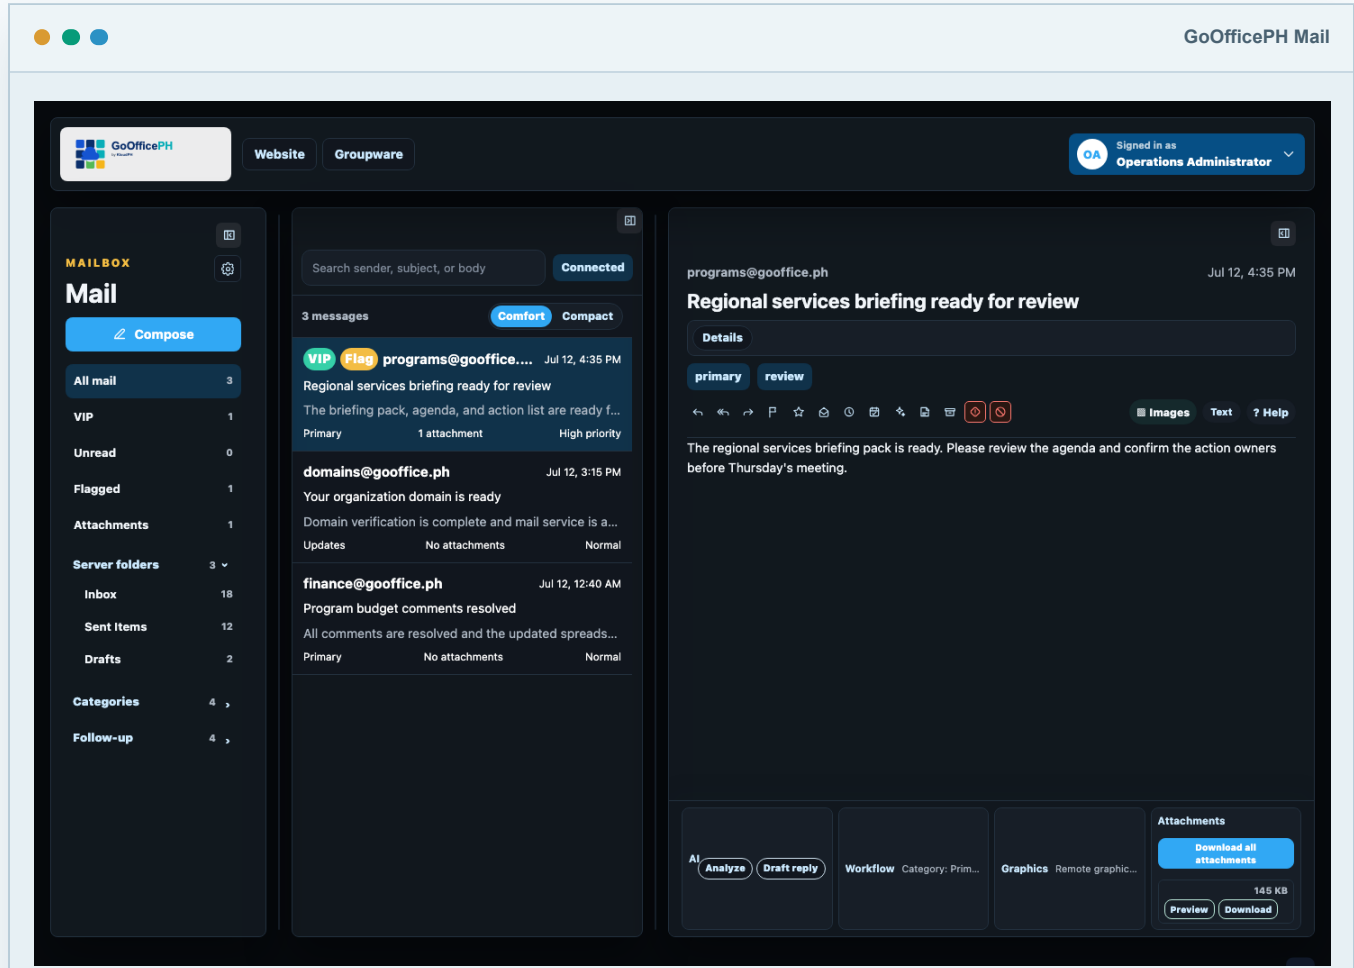

## Protect the operating model

Fragmented accounts and tools make access reviews, incident response, and offboarding harder to complete.

## Keep work understandable

Official communication and working files become difficult to trace when identity, storage, meetings, and follow-up live in separate systems.

# One working journey, from communication to accountable follow-through.

The screenshot displays the GoOfficePH Mail application interface. At the top, there's a navigation bar with 'Website' and 'Groupware' links, and a user profile for 'Operations Administrator'. The main interface is divided into three sections: a left sidebar with a 'MAILBOX' overview and a list of folders (All mail, VIP, Unread, Flagged, Attachments, Server folders, Categories, Follow-up); a central message list showing three messages from 'programs@gooffice.ph', 'domains@gooffice.ph', and 'finance@gooffice.ph'; and a right pane showing the details of the selected message, 'Regional services briefing ready for review'. The message details include a 'Details' tab, a 'primary review' status, and a description of the briefing pack. At the bottom of the right pane, there are buttons for 'Analyze', 'Draft reply', 'Workflow', 'Graphics', and 'Attachments'.

**Start with daily work**

Mail establishes the identity and communication path teams already understand.

## Outcome

Give agency personnel one identity and a clear place for Mail, meetings, files, office work, and follow-through.

## Outcome

Delegate administration by tenant, domain, and role while preserving platform-level oversight.

## Outcome

Review activity, service use, security events, and operational reports without assembling evidence from unrelated tools.

# See complete applications doing recognizable work.

The screenshot displays the GoOfficePH Chat/Meet application interface. At the top, there's a header with the GoOfficePH logo and a user profile for 'Operations Administrator'. The main interface is divided into three sections: a left sidebar for 'CHAT AND MEET' with a list of rooms (New room, Regional services review, Operations team, Finance committee), a central 'ROOM' section for the 'Regional services review' meeting, and a right sidebar with controls. The 'ROOM' section shows a video grid with six participants: You, Mara Santos, Paolo Reyes, Grace Lim, Nico Dela Cruz, and Leah Villanueva. Below the video grid, there's a status bar indicating the meeting is connected and recording. The right sidebar includes buttons for 'Refresh', 'Invite', 'Voice', 'Video', 'Chat', 'Whiteboard', 'Copy link', and 'Leave'.

## Chat/Meet in active use

People remain visible across a complete meeting interface.

### GoOfficePH Mail

Keep daily communication, attachments, invitations, safety cues, and follow-up in one focused inbox.

### GoOfficePH Suite

Keep files, sharing, documents, spreadsheets, presentations, exports, versions, and storage in one workspace.

### GoOfficePH Whiteboard

Capture meeting ideas with host controls, attributed annotations, and export to PDF, OpenDocument Drawing, or Suite.

### GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

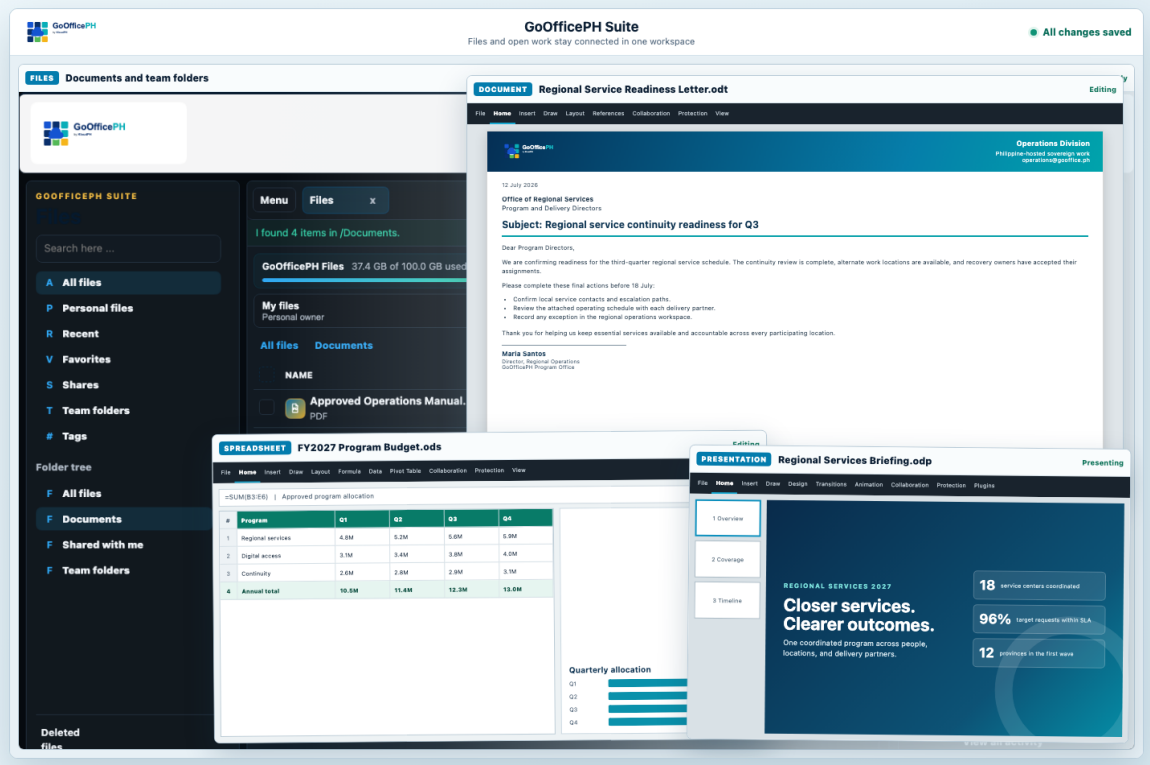

### GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

### GoOfficePH Calendar

Keep invitations, schedules, shared calendars, meeting links, and follow-up visible across the workspace.

# Keep communication, files, schedules, decisions, and next steps in one relationship.

The screenshot displays the GoOfficePH Suite workspace. On the left is a sidebar with a search bar and a folder tree. The main area contains four overlapping windows: a 'Regional Service Readiness Letter.odt' document, an 'FY2027 Program Budget.ods' spreadsheet, and a 'Regional Services Briefing.odp' presentation. The spreadsheet shows a table with columns for Program, Q1, Q2, Q3, and Q4. The presentation shows a slide titled 'Regional Services 2027' with key statistics.

**Files and office work together**  
Suite preserves the complete file, document, spreadsheet, and presentation workspace.

## GoOfficePH Contacts

Keep personal contacts, tenant directories, shared address books, and Mail recipient workflows together.

## Administration and governance

Manage people, tenants, domains, roles, services, storage, and policy from role-aware consoles.

## Reports

Turn activity and service data into role-appropriate online views and professional exports.

## GoOfficePH Connected Workspace

Keep related messages, meetings, files, schedules, contacts, boards, whiteboards, and credit actions close to the work they support.

## Auditability

Review who acted, what changed, where it happened, and which organization was affected.

# Begin with the service the organization needs now, then expand deliberately.

One credit equals one Philippine peso. Annual commitment rates and month-to-month rates remain visible before activation.

# Prove one outcome before expanding the footprint.

## Assess

Map users, domains, data, migration sources, policies, and a measurable first workflow.

## Establish

Set up identity, recovery, protection, Mail, and the first operating group.

## Coordinate

Add rooms, meetings, guests, schedules, and mobile participation.

## Connect

Add files, office work, boards, whiteboards, wallets, governance, and reports.

## Measure and expand

Review adoption, service health, risk, support, storage, and outcomes before scaling.

**Schedule a sovereign workspace assessment**

# Ground the decision in current policy, market context, pricing, and product evidence.

- 1 DICT Cloud First Policy**  
 Cloud computing is the preferred ICT deployment strategy for government agencies, subject to policy exceptions.  
[https://cms-cdn.e.gov.ph/DICT/pdf/Signed\\_DICT-Circular\\_2017-002\\_CloudComp\\_2017Feb07.pdf](https://cms-cdn.e.gov.ph/DICT/pdf/Signed_DICT-Circular_2017-002_CloudComp_2017Feb07.pdf)

---

- 2 DOF / amended DICT Cloud First policy**  
 Sensitive government data is subject to the residency conditions of the amended Cloud First Policy; general government cloud data is not automatically restricted to the Philippines.
