

PUBLIC SECTOR CAMPAIGN KIT

Governed collaboration for national and local public service

We bring official Mail, meetings, files, office documents, structured work, identity, administration, and reports into a Philippine-hosted workspace that agencies can evaluate as one service.

Cloud first

Government policy makes cloud the preferred ICT deployment strategy, subject to defined exceptions.

Different responsibilities require different entry points.

GoOfficePH keeps one product foundation while speaking directly to the outcome each audience must deliver.

OFFICIAL WORK DESERVES AN ACCOUNTABLE
WORKSPACE

National government

**One governed workspace for
the work citizens depend on.**

Agencies must modernize collaboration while preserving clear responsibility for official communication, access, sensitive information, continuity, and procurement.

COORDINATE PUBLIC SERVICE WITHOUT ADDING
ADMINISTRATIVE BURDEN

Local government

**Local coordination that
remains understandable
through every transition.**

LGUs need dependable communication and coordination across departments, locations, leadership transitions, emergencies, and everyday constituent service.

**One governed workspace for the work citizens
depend on.**

Fragmented tools turn everyday work into a governance problem.

01

NATIONAL GOVERNMENT

Fragmented accounts and tools make access reviews, incident response, and offboarding harder to complete.

02

NATIONAL GOVERNMENT

Official communication and working files become difficult to trace when identity, storage, meetings, and follow-up live in separate systems.

03

NATIONAL GOVERNMENT

Cloud adoption still requires data classification, safeguards, accountability, and documented operating boundaries.

04

LOCAL GOVERNMENT

Personal accounts and disconnected subscriptions weaken continuity when personnel or administrations change.

05

LOCAL GOVERNMENT

Field coordination loses context when meetings, files, decisions, and action items are separated.

06

LOCAL GOVERNMENT

Small IT teams need controls that can manage many users without turning every request into manual support work.

The decision is not only which apps people use.

It is how identity, communication, files, administration, access, policy, and evidence remain connected as the organization grows.

Bring the work and the responsibility around it into one operating model.

NATIONAL GOVERNMENT

Give agency personnel one identity and a clear place for Mail, meetings, files, office work, and follow-through.

NATIONAL GOVERNMENT

Delegate administration by tenant, domain, and role while preserving platform-level oversight.

NATIONAL GOVERNMENT

Review activity, service use, security events, and operational reports without assembling evidence from unrelated tools.

NATIONAL GOVERNMENT

Roll out in stages, beginning with Mail or a defined bureau, program, or project group.

LOCAL GOVERNMENT

Keep official domains, users, groups, and services under the LGU's administrative view.

LOCAL GOVERNMENT

Use mobile-friendly Chat/Meet for offices, field teams, guests, and emergency coordination.

Philippine-hosted

Tenant and domain governance

Role-aware administration

Audit and reporting

Migration assistance

Modular deployment

Local support

Mobile Chat/Meet

Choose a practical entry point, then expand without replacing the operating model.

One credit equals one Philippine peso. Rates are per user/month; the lower rate requires an annual commitment.

PROFESSIONAL EMAIL

Mail Lite

149 annual commitment

179 month-to-month credits per user

Philippine-hosted business email with company domains, aliases, forwarding, vacation replies, app-password access, mailbox privacy controls, and straightforward administration.

REAL-TIME COLLABORATION

Chat/Meet Standalone

199 annual commitment

239 month-to-month credits per user

Persistent team rooms, guest links, voice, video, screen sharing, meetings, and tenant-aware permissions for organizations that want real-time collaboration without the full Groupware bundle.

GROUPWARE ENTRY

Workspace Starter

249 annual commitment

299 month-to-month credits per user

Mail, Files, Suite, basic Chat, Calendar, Contacts, Wallet, Connected Workspace, pooled storage, company domain setup, invitations, and tenant administration for growing teams.

COMPLETE GROUPWARE

Workspace Business

499 annual commitment

579 month-to-month credits per user

Complete Groupware with Work Boards, Whiteboard, Calendar, Contacts, Wallet, Connected Workspace, 100 GB pooled storage per seat, Chat/Meet host rights, desktop access, advanced administration, and higher-priority support.

HIGH-ASSURANCE OPTION

Sovereign Plus

899 annual commitment

999 month-to-month credits per user

The complete connected application catalog with priority support, stronger audit visibility, sovereign backup policies, compliance reporting, and enhanced administration for regulated and mission-critical organizations.

About 40% below the mainstream benchmark

Workspace Starter	PHP 249 vs PHP 418 mainstream average	40.4% lower
Workspace Business	PHP 499 vs PHP 851 mainstream average	41.3% lower
Sovereign Plus	PHP 899 vs PHP 1491 mainstream average	39.7% lower

Method: published per-user monthly rates for Google Workspace and Microsoft 365 under annual commitments, averaged within each tier at PHP 61.60/USD. These are monthly price units rather than annual totals; payment timing follows each provider's terms. Zoho is shown separately in the source register as a lower-cost reference. Storage and feature bundles differ.

CURRENT PRODUCTION EXPERIENCE

Start with Mail, connect Chat/Meet and Suite, then structure the work around them.

GoOfficePH Mail

Keep daily communication, attachments, invitations, safety cues, and follow-up in one focused inbox.

GoOfficePH Chat/Meet

Bring members and guests into persistent rooms, voice, video, screen sharing, recordings, and transcripts.

GoOfficePH Suite

Keep files, sharing, documents, spreadsheets, presentations, exports, versions, and storage in one workspace.

GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

THE CONNECTED APPLICATION FAMILY

Keep schedules, people, work, ideas, credits, and desktop access close to the core workspace.

These applications extend Mail, Chat/Meet, and Suite without creating a separate identity or administrative model.

GoOfficePH Calendar

Keep invitations, schedules, shared calendars, meeting links, and follow-up visible across the workspace.

GoOfficePH Contacts

Keep personal contacts, tenant directories, shared address books, and Mail recipient workflows together.

GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

GoOfficePH Whiteboard

Capture meeting ideas with host controls, attributed annotations, and export to PDF, OpenDocument Drawing, or Suite.

GoOfficePH Wallet

Keep verified credit allocation and product activation visible across personal, tenant, reseller, and staff roles.

GoOfficePH Connected Workspace

Keep related messages, meetings, files, schedules, contacts, boards, whiteboards, and credit actions close to the work they support.

Desktop GoOfficePH Groupware

Give managed Windows, macOS, and Linux devices a consistent desktop path into Mail, Suite, Chat/Meet, Calendar, and Contacts.

Give every role the controls and reports appropriate to its responsibility.

ANIZATION

Organization overview

Organization console groups tenant-scoped people, domains, mail controls, storage, and branding.

SECTION

task, report, or review area

Manage access
Invite users, place them under domains, assign tenant admins, and review account state.

2 Control services
Manage domains, mail policies, storage pools, app services, credits and branding.

ice QA Tenant
e.ph - 24 users - 5 domains Active

Domains
5
5 verified

Reserved minimum

Personal

Account, services, security, data transfer, support, and activity.

My Organization

People, domains, Mail controls, storage, apps, wallet, branding, and reports.

Platform Operations

Tenants, work queues, staff, protection, commercial controls, audit, and platform reporting.

Reseller

Customer credit sales, wallet, portfolio, transaction history, and partner reports.

Prove one outcome before expanding the footprint.

1

Assess

Map users, domains, data, migration sources, controls, and the first measurable workflow.

2

Establish Mail

Set up business identity, recovery, protection, migration, and the first operating group.

3

Add coordination

Introduce Chat/Meet, guests, meetings, and mobile access under the same identity.

4

Connect work

Add Suite, Calendar, Contacts, Work Boards, Whiteboard, Wallet, and role-appropriate reports.

5

Measure and expand

Review adoption, service health, activity, support, storage, and governance before scaling.

Schedule a sovereign workspace assessment

Select one agency workflow, define its data and access requirements, and evaluate a staged GoOfficePH pilot with measurable operating outcomes.

Evaluate GoOfficePH against current policy, market, and product evidence.

1

DICT Cloud First Policy

Cloud computing is the preferred ICT deployment strategy for government agencies, subject to policy exceptions.

https://cms-cdn.e.gov.ph/DICT/pdf/Signed_DICT-Circular_2017-002_CloudComp_2017Feb07.pdf

2

DOF / amended DICT Cloud First policy

Sensitive government data is subject to the residency conditions of the amended Cloud First Policy; general government cloud data is not automatically restricted to the Philippines.
