

REGULATED OPERATIONS
CAMPAIGN KIT

Productivity with clearer operational control

We connect business Mail, meetings, files, office work, structured follow-through, administration, security controls, audit, and reports for organizations that need stronger visibility over people, domains, services, and external-provider risk.

Governed

Cloud outsourcing and transferred processing still require documented safeguards and accountability.

Different responsibilities require different entry points.

GoOfficePH keeps one product foundation while speaking directly to the outcome each audience must deliver.

**MAKE GOVERNANCE PART OF PRODUCTIVITY,
NOT A SEPARATE REPORTING EXERCISE**

Regulated and critical enterprise

A productive workspace with the controls serious operations expect.

Regulated enterprises and critical service providers must enable fast work while demonstrating control over identity, outsourcing, information handling, continuity, and administrative action.

**PROTECT OPERATIONAL COLLABORATION
AROUND SENSITIVE CARE ENVIRONMENTS**

Healthcare organizations

Faster coordination with clearer responsibility around every workspace.

Healthcare teams coordinate time-sensitive work around sensitive personal information, distributed facilities, external partners, and strict duty-of-care expectations.

A productive workspace with the controls serious operations expect.

Fragmented tools turn everyday work into a governance problem.

01

REGULATED AND CRITICAL ENTERPRISE

Disconnected productivity tools make policy enforcement and evidence collection slower and less reliable.

02

REGULATED AND CRITICAL ENTERPRISE

Compromised accounts and outbound abuse can affect customers, operations, and organizational reputation.

03

REGULATED AND CRITICAL ENTERPRISE

Cloud and outsourcing arrangements require governance, documented responsibility, and continuing risk management.

04

HEALTHCARE ORGANIZATIONS

Unmanaged communication and file sharing create unnecessary exposure around sensitive operational information.

05

HEALTHCARE ORGANIZATIONS

Shift-based and cross-facility teams need fast coordination without losing access boundaries or decision history.

06

HEALTHCARE ORGANIZATIONS

Privacy accountability continues when processing is outsourced, making processor safeguards and operational visibility important.

The decision is not only which apps people use.

It is how identity, communication, files, administration, access, policy, and evidence remain connected as the organization grows.

Bring the work and the responsibility around it into one operating model.

REGULATED AND CRITICAL ENTERPRISE

Apply platform, tenant, domain, and user controls within one operating model.

REGULATED AND CRITICAL ENTERPRISE

Combine inbound and outbound Mail controls with identity, audit events, alerts, and reports.

REGULATED AND CRITICAL ENTERPRISE

Give administrators online drill-down views and professional exports for review and action.

REGULATED AND CRITICAL ENTERPRISE

Choose shared, dedicated, or modular deployment patterns that fit the organization's operating requirements.

HEALTHCARE ORGANIZATIONS

Keep nonclinical communication, meetings, documents, schedules, and work items in one governed workspace.

HEALTHCARE ORGANIZATIONS

Use tenant, domain, role, and group controls to separate facilities and operating teams.

Governed identity

Inbound and outbound Mail controls

Audit explorer

Professional reports

Dedicated deployment options

Migration support

Philippine hosting

Role-based access

Choose a practical entry point, then expand without replacing the operating model.

One credit equals one Philippine peso. Rates are per user/month; the lower rate requires an annual commitment.

PROFESSIONAL EMAIL

Mail Lite

149 annual commitment

179 month-to-month credits per user

Philippine-hosted business email with company domains, aliases, forwarding, vacation replies, app-password access, mailbox privacy controls, and straightforward administration.

REAL-TIME COLLABORATION

Chat/Meet Standalone

199 annual commitment

239 month-to-month credits per user

Persistent team rooms, guest links, voice, video, screen sharing, meetings, and tenant-aware permissions for organizations that want real-time collaboration without the full Groupware bundle.

GROUPWARE ENTRY

Workspace Starter

249 annual commitment

299 month-to-month credits per user

Mail, Files, Suite, basic Chat, Calendar, Contacts, Wallet, Connected Workspace, pooled storage, company domain setup, invitations, and tenant administration for growing teams.

COMPLETE GROUPWARE

Workspace Business

499 annual commitment

579 month-to-month credits per user

Complete Groupware with Work Boards, Whiteboard, Calendar, Contacts, Wallet, Connected Workspace, 100 GB pooled storage per seat, Chat/Meet host rights, desktop access, advanced administration, and higher-priority support.

HIGH-ASSURANCE OPTION

Sovereign Plus

899 annual commitment

999 month-to-month credits per user

The complete connected application catalog with priority support, stronger audit visibility, sovereign backup policies, compliance reporting, and enhanced administration for regulated and mission-critical organizations.

About 40% below the mainstream benchmark

Workspace Starter	PHP 249 vs PHP 418 mainstream average	40.4% lower
Workspace Business	PHP 499 vs PHP 851 mainstream average	41.3% lower
Sovereign Plus	PHP 899 vs PHP 1491 mainstream average	39.7% lower

Method: published per-user monthly rates for Google Workspace and Microsoft 365 under annual commitments, averaged within each tier at PHP 61.60/USD. These are monthly price units rather than annual totals; payment timing follows each provider's terms. Zoho is shown separately in the source register as a lower-cost reference. Storage and feature bundles differ.

CURRENT PRODUCTION EXPERIENCE

Start with Mail, connect Chat/Meet and Suite, then structure the work around them.

Security controls

Apply identity, mail, access, sharing, and alert controls across the workspace.

Auditability

Review who acted, what changed, where it happened, and which organization was affected.

Reports

Turn activity and service data into role-appropriate online views and professional exports.

Administration and governance

Manage people, tenants, domains, roles, services, storage, and policy from role-aware consoles.

THE CONNECTED APPLICATION FAMILY

Keep schedules, people, work, ideas, credits, and desktop access close to the core workspace.

These applications extend Mail, Chat/Meet, and Suite without creating a separate identity or administrative model.

GoOfficePH Calendar

Keep invitations, schedules, shared calendars, meeting links, and follow-up visible across the workspace.

GoOfficePH Contacts

Keep personal contacts, tenant directories, shared address books, and Mail recipient workflows together.

GoOfficePH Work Boards

Turn messages, meetings, documents, and approvals into visible owners, due dates, reviews, and completed work.

GoOfficePH Whiteboard

Capture meeting ideas with host controls, attributed annotations, and export to PDF, OpenDocument Drawing, or Suite.

GoOfficePH Wallet

Keep verified credit allocation and product activation visible across personal, tenant, reseller, and staff roles.

GoOfficePH Connected Workspace

Keep related messages, meetings, files, schedules, contacts, boards, whiteboards, and credit actions close to the work they support.

Desktop GoOfficePH Groupware

Give managed Windows, macOS, and Linux devices a consistent desktop path into Mail, Suite, Chat/Meet, Calendar, and Contacts.

Give every role the controls and reports appropriate to its responsibility.

ANIZATION

Organization overview

Organization console groups tenant-scoped people, domains, mail controls, storage, and branding.

SECTION

task, report, or review area

Manage access
Invite users, place them under domains, assign tenant admins, and review account state.

2 Control services
Manage domains, mail policies, storage pools, app services, credits and branding.

ice QA Tenant
e.ph - 24 users - 5 domains Active

Domains
5
5 verified

Reserved minimum

Personal

Account, services, security, data transfer, support, and activity.

My Organization

People, domains, Mail controls, storage, apps, wallet, branding, and reports.

Platform Operations

Tenants, work queues, staff, protection, commercial controls, audit, and platform reporting.

Reseller

Customer credit sales, wallet, portfolio, transaction history, and partner reports.

Prove one outcome before expanding the footprint.

1

Assess

Map users, domains, data, migration sources, controls, and the first measurable workflow.

2

Establish Mail

Set up business identity, recovery, protection, migration, and the first operating group.

3

Add coordination

Introduce Chat/Meet, guests, meetings, and mobile access under the same identity.

4

Connect work

Add Suite, Calendar, Contacts, Work Boards, Whiteboard, Wallet, and role-appropriate reports.

5

Measure and expand

Review adoption, service health, activity, support, storage, and governance before scaling.

Request an architecture and risk review

Map identity, domains, data flows, outsourcing responsibilities, controls, reports, migration, and deployment boundaries before selecting a pilot.

Evaluate GoOfficePH against current policy, market, and product evidence.

1 NPC, Data Privacy Act

Controllers must apply reasonable safeguards and remain accountable for personal data transferred to third parties, domestically or internationally.

<https://privacy.gov.ph/data-privacy-act/>

2 NPC, DPA IRR

Government and private organizations must implement organizational, physical, and technical security measures appropriate to their processing risks.

<https://privacy.gov.ph/implementing-rules-regulations-data-privacy-act-2012/>

3 BSP M-2022-046

BSP-supervised financial institutions must address outsourcing registers, offshore arrangements, cloud outsourcing, and related IT risk-management requirements.

<https://www.bsp.gov.ph/Regulations/Issuances/2022/M-2022-046.pdf>

4 Google Workspace pricing

Google publishes per-user monthly list prices of USD 7.56, USD 15.12, and USD 26.40 for Business Starter, Standard, and Plus under a one-year commitment in the Philippines; Google states that these plans are billed monthly.

https://workspace.google.com/intl/en_ph/

5 Microsoft 365 pricing

Microsoft publishes per-user monthly list prices of USD 6.00, USD 12.50, and USD 22.00 for Business Basic, Standard, and Premium under an annual subscription paid yearly.

<https://www.microsoft.com/en-us/microsoft-365/business/microsoft-365-plans-and-pricing>

6 Zoho Workplace pricing

Zoho publishes lower-cost per-user monthly reference prices of USD 3.00 and USD 6.00 for Workplace Standard and Professional under annual billing.
